

Your pet is important to us!

Please read and acknowledge the following information regarding the grooming of pets with matted fur and/or senior dogs:

Matted Fur

- Severely matted coats can cause a variety of health problems, including skin irritation, bruising, and stress during grooming. Removing mats may require shaving the coat, which can occasionally expose pre-existing conditions or cause minor nicks or skin irritation.

I understand that:

- Grooming matted fur may increase the risk of injury, stress, or trauma to my pet.
- The Groom Room by Steph will always prioritize the health and comfort of my pet and will only proceed with mat removal that is in their best interest.
- Additional fees may apply for dematting services.
- The groomer may decide to stop the grooming process if it becomes too stressful or dangerous for my pet.

Senior Dogs

- Senior pets often have special needs and may not tolerate grooming as well as younger pets. Grooming may aggravate existing conditions, especially those related to joints, skin, or internal health.

I understand that:

- The grooming process will be adjusted to accommodate my senior pet's comfort and safety.
- There is an increased risk of stress or medical issues during grooming due to age-related health conditions.
- The Groom Room by Steph will take every precaution, but I will not hold the salon responsible for any complications due to my pet's age or condition.

We request your permission to obtain treatment should it become necessary.

I hereby grant permission to this grooming establishment to obtain emergency veterinary treatment for my pet at my own expense.
